

CASE STUDY No 2: YEMGAS in BEL HAF

The Brief:

To manufacture 27 splitters and baffles in 316 Marine Grade Stainless Steel for the Yemgas Seawater Pumping Station at Bel Haf in Yemen

Summary:

A turnkey solution including arranging a rapid airfreight shipment to Sanaa in Yemen for a consignment of 12 tonne 316 Marine Grade Stainless Steel.

Due to air freight size restrictions, each 5m section was split into smaller sections, shipped on time, and synergically welded on site at Yemgas by PEC personnel.

Date:

April 2009
